December 1992
\$27.95

For seventeen years, the author pursued the story of Richard Case Nagell—a former U.S. intelligence officer who, in his role as CIA "double agent," was ordered by the Soviets to kill Lee Harvey Oswald several months before the JFK assassination in 1963. While the FBI and CIA failed to take steps that could have prevented the tragedy in Dallas, the author postulates that a right-wing cabal allied with elements of the Pentagon, U.S. intelligence, the Mafia, and Cuban exiles orchestrated the conspiracy with Oswald as their "patsy." Author Jim Marrs ("Crossfire") says this book "takes us deeper into the murky world of intelligence than ever before."

"Assassination buffs will be fascinated by Dick Russell's book on Oswald and Nagell for it contains a great deal of new material that can open a host of hitherto unperceived leads."

—Norman Mailer

Hired to Kill Oswald

And Prevent the

Assassination of JFK
